

**Parameterisation of Water Flow and Storage Processes:
Theoretical and Practical Approaches for the IP3 Research Basins**
An IP3 Workshop Hosted by the Cold Regions Research Centre

Tuesday, 17 June, 2008
Paul Martin Centre, Wilfrid Laurier University
Waterloo, Ontario

8:00-8:30	Registration	
8:30-8:50	Session 1: Welcome and Introduction to Workshop	
	<i>Chair: S. Carey</i>	Carleton Univ.
	R. Petrone, CRRC Director	W.L.U.
	J. Pomeroy, IP3 PI	Univ. Sask.
	W. Quinton	W.L.U.
8:50-10:30	Session 2 – Parameterisation: Perspectives and Approaches	
	<i>Chair: D. Verseghy</i>	Environment Canada
8:50-9:10	M. Hayashi	Univ. Calgary
9:10-9:30	S. Carey	Carleton Univ.
9:30-9:50	M. Mackay	Environment Canada
9:50-10:10	P. Dornes	Univ. Sask.
10:10-10:30	F. Seglenieks & E.D. Soulis	Univ. Waterloo
10:30-11:00	Coffee Break	
11:00-12:30	Session 3 – Breakout Groups: How to parameterise the major water flow and storage processes in the IP3 research basins.	
	<i>Chair: W. Quinton</i>	W.L.U.
12:30-13:30	Buffet Lunch	
13:30-15:30	Session 4 - Breakout Group Reports and Summary Discussion	
	<i>Chair and Moderator: J. Pomeroy</i>	Univ. Sask.
13:30-15:00	Rapporteur Reports	
15:00-15:30	Open Discussion	
15:30-16:00	Coffee Break	
16:00-17:00	Session 5 – Reflections and Feedback from Modellers	
	<i>Chair and Moderator: M. Hayashi</i>	Univ. Calgary
16:00-16:15	D. Verseghy	Environment Canada
16:15-16:30	V. Fortin	Environment Canada
16:30-16:45	B. Tolson	Univ. Waterloo
16:45-17:00	Open discussion	
17:00-end	Concluding Remarks	
	J. Pomeroy / W. Quinton	Univ. Sask. / W.L.U.
